

INTERTEK TURKEY

SAFETY, EFFICIENCY,
QUALITY & COMPLIANCE
IN COSMETIC PRODUCTS

We bring a better understanding of your cosmetics and your ingredients to help you meet current challenges and to ensure your placing safe, efficient, and quality products on the market.

Our experts have over 30 years knowledge and experience in providing safety and efficacy services for the healthcare and beauty product in industry. We support manufacturers, distributors, and exporters at every stage with a wide range of services in this field.

Our global team of experts provide a comprehensive range of assurance, testing, inspection, and certification solutions that help you accelerate product development and safety throughout the supply chain.

In 2009, the EC 1223/2009 EU Cosmetic Regulation replaced the EU Cosmetics Directive 76/768 EEC and on 11 July 2013, the regulation came into full force.

Our Regulatory Affairs experts can assist with the Cosmetic Regulation EC 1223 /2009 for the following services.

Health & Beauty Services

- Safety and Quality Testing
- Microbiological Analysis
- Heavy Metals
- Physico-Chemical Measurements
- Cosmetic Packaging Testing
- Raw Material Analysis
- Controlled Substances
- GMP - ISO 22716 Audit
- In-Vitro Testing Services
- Stability Testing
- Challenge Testing- Preservative Efficacy Testing
- Patch Testing

Efficiency and Performance Studies

Clinical studies, In-Vitro tests and consumer reviews are recommended for efficacy and performance evaluations. Our teams of clinical testing experts specialize in designing and conducting clinical testing for personal care products such as skin products, sun products, oral care, and hair care.

Product Safety Assessment and Compliance

Safety Assessments delivered via our Eurotox toxicologist network with different standards.

- Cosmetic Product Information File (PIF)
- Product Safety Assessment
- Verification of Labelling
- Notification via the European Portal CPNP
